

MIKE IMI OTEGA

FULLSTACK DEVELOPER · AI INTEGRATION · REACT /
NEXT.JS / NODE.JS

✉ kenxy3@gmail.com ☎ 07064989374 📍 Lagos 🔗 mikelmi.netlify.app

PROFILE

Fullstack Developer with 4+ years of experience building scalable web applications, SaaS platforms, and AI-integrated tools using modern JavaScript technologies. Proficient across the fullstack deployment from React/Next.js frontends and Node.js/Express APIs to MongoDB and PostgreSQL databases. Shipped real products including an AI-powered SaaS resume builder integrating Google Gemini and Groq, a full ecommerce platform, and multiple client dashboards. Obsessed with clean architecture, performance, and interfaces that delight users. Open to remote opportunities globally.

EXPERIENCE

Web & Software Developer

September 2025 – May 2026

Egor Local Government Council

- › Maintained and scaled the council's official web platform and internal digital systems, improving reliability and performance
- › Built and consumed RESTful APIs to connect frontend interfaces with backend services
- › Debugged issues across the full stack — from UI rendering to database queries
- › Collaborated with non-technical stakeholders to translate requirements into working solutions under evolving specs

Frontend Developer & Full-Stack Engineer

Jan 2023 – present

Freelance / Independent Development

- › Designed and shipped complete fullstack applications end-to-end — ecommerce platforms, admin dashboards, and productivity tools — deployed on Vercel/Netlify
- › Built Agentic CV, an AI-powered SaaS resume builder in Next.js 16 / React 19 integrating Google Gemini and Groq for AI content generation, NextAuth + Google OAuth for authentication, Cloudinary for asset management, and MongoDB for persistence
- › Built Shopperific, a full ecommerce platform with product search (debounced), cart management, order flows, and MongoDB aggregation pipelines for analytics and filtered views
- › Built scalable component libraries with TypeScript, animated interfaces with Framer Motion, and reusable architecture across 30+ projects

EDUCATION

Structural Engineering

University Of Benin
Jan 2019 – April 2024

SKILLS

Project Management · HTML/CSS · React · TypeScript · Node.js · MongoDB · RESTful APIs ·
Git · Version Control Systems · Express · API Integration · Websockets
